Dear Friend,

How would you like to wake up early each morning feeling healthy, refreshed and ready to take on the day?

Just picture it. Your alarm clock buzzes loudly. But you don't hit the snooze button. Instead, you simply turn it off... You wake up refreshed and ready to go at 5:00 a.m.

You have an invigorating workout in your home gym. You run along the beach and watch the sunrise. You see the sky fill with brilliant colors of red, orange and yellow – a rare, breathtaking view. And when you return home, you have incredible and fulfilling sex with your partner.

Now, the alarm's buzz simply means it's time to prepare for work.

You look forward to the day with a newfound excitement. After all, you love your job. Your co-workers give you the respect you truly deserve. And you are a valuable member of your company. In fact, you recently got a promotion.

You reside in the coveted, corner office overlooking the park. You receive outstanding health and retirement benefits for your entire family. And best of all, your salary has increased substantially – You already have plans to buy that new, BMW Z4 convertible you've been eyeing. And your much-deserved Hawaiian vacation is a mere 12 days away.

You're truly happy.

Somehow, you are able to meet everyone's needs, including your own. You spend your leisure time with family and friends – golfing, working out, watching sports, trying new hobbies, and enjoying exciting activities.

Best of all, you have sex whenever and wherever you want. You are in top, physical condition and feel better than you have your entire life.

Now, you're probably thinking this can never happen – But let me assure you, it's possible.

You can have a rich and ultra-fulfilling life.

You can feel better than you did in your 20s!

There is a new, nutritional discovery regarding men's health that is making medical news around the world.

The scientific community is changing the way they think about men's health ... and you will too!

My name is Martin Smith, M.D. And I'm one of a select group of U.S. doctors specializing in men's health with a degree from both Oxford University and Johns Hopkins University.

I formed the Martin Smith Clinic and Health Awareness Center in Fort Lauderdale, FL. And I've spent the last twenty-five years conducting extensive research on the benefits of natural healing.

Every day, men just like you seek my advice.

Do you have these questions too?

- "My sex drive is diminishing more each day. How can I feel like my old self again?"
- "My job and family responsibilities are really stressing me out. How can I relax?"
- "I have gained over twenty pounds and just don't feel like exercising. What can I do?"
- "I keep hearing about men with prostate problems...Am I next?"
- "It seems like my life is flying by. How can I take control?"

You can have better sex, protect your prostate, lose weight and have more energy – in days!

You can take control and live the life you want!

If you feel old before your time, you are definitely not alone.

Did you know:

- A recent AARP study indicates that the proportion of men who've tried potency-enhancing medicines, hormones, or other treatments has doubled since 1999!
- Men age 50 to 59 reported sexual problems at three times the rate of men age 18 to 29!
- Prostate studies show that an estimated 27,350 American men will lose their lives to prostate cancer in 2006. It takes 1 life every 18 minutes!
- About 64% of U.S. adults are either overweight or obese. And nearly 1/3 of all adults are now classified as obese!

But a surprising new discovery will change all this. It can help you be the man you want to be and feel 20 years younger.

Meet Dr. Martin Smith

Years ago, I watched as my once robust and physically-active father became listless, sluggish and apathetic. And there was nothing I could do through conventional medicine to help him.

I felt completely helpless as I watched his mental and physical capabilities decline rapidly. And if you've ever watched your parents age, you know how painful this can be.

Well, shortly after his death, I vowed to find a solution for the damaging effects of the typical Western diet which I believe caused his demise. And I took a sabbatical in Linhai, a small town to the south of Shanghai to study herbs used by ancient Chinese healers.

After years of extensive research and tests, I created an all natural, unique combination of special herbs and vitamins – It has significantly improved my health and increased energy levels in thousands of men worldwide.

I am committed to helping men fight the debilitating effects of aging, and I can help you too!

To learn about this exciting discovery, read the next page...

For many years, scientists have been studying the biological causes of aging. And recent studies have come to an irrefutable conclusion – your body needs whole food-nutrients to fight disease and thrive.

Super Green Foods are causing shock waves in the medical community –

This single source can give you the energy and good health you need to start enjoying life again -- in just days!

If your doctor has not heard of Super Green Foods, he will soon. With the powerful, therapeutic effects of Super Green Foods, you will have more energy and better health than you ever thought possible!

Instead of watching television reruns of *Indiana Jones* movies, *Survivor* or international travelers on *The Travel Channel*, you'll have your own amazing experiences.

With your new energy and stamina, you'll feel the rush of cycling down a volcano in Maui...

Experience the calm, undersea world as you scuba dive in Fiji with tropical fish, large sea turtles and playful dolphins...

Relax with deep breaths of fresh air as you hike through a tropical rainforest...

Enjoy the giggle of a child as you run, play and lift him over your shoulders without pain.

It's time to experience amazing adventures, sporting activities and travel that you've only dreamed of before!

You see, Super Green Foods can help protect your body against free radicals, disease and cancer 24/7. They are not part of the typical Western diet – They are natural chemicals, or *phytochemicals*, found in plants. And your body easily absorbs these essential nutrients.

The *American Dietetic Association* reports that phytochemicals are associated with the prevention and/or treatment of at least four of the leading causes of death in the United States -- cancer, diabetes, cardiovascular disease, and hypertension. Phytochemicals help prevent cell damage and cancer cell replication, and decrease cholesterol levels.

Bloch, A. et al. 1995. *Position of the American Dietetic Association: Phytochemicals and functional foods*. JADA.95: 493-496

In fact, your body needs these chemicals to regulate cell activity. They help control toxic reactions caused by drugs and the chemical exposure of diet and environment. That means you can spend more time having fun - Play golf, workout, travel, spend time with your lover, and do all of the things you want to do – with lots of energy and stamina!

That's right. You can stop worrying about illness. You can feel young and healthy and be more successful!

Just picture it. Now, you never waste time dealing with a contagious cold or flu bug. You are always healthy and active. You do the things you love. And you don't catch the latest office illness that is going around. Instead, you think clearly – You are highly productive *every day*.

Call 1-800-Optimiz (800-678-4649) now to feel leaner, younger, stronger and sexier in just a few days!

You feel great. And your super-powered immune system gives you a competitive advantage!

You feel the exhilaration of beating the competition and exceeding at all of the projects you undertake. Plus, you love adding the thousands of dollars saved from unnecessary doctor visits, prescriptions and other medical bills into your bank account each year. You never miss important events in your life due to illness – at home or at work.

But how can this be possible?

Well, Super Green foods are micro-nutrients from whole foods that come from nutrient-dense, super-potentiated plants. They are very high in chlorophyll. And research shows that magnesium-rich chlorophyll is to plants what iron is to your blood -- a very rich form of energy.

The Journal of the American Heart Association reports that, “a magnesium rich-diet may help reduce the risk of metabolic syndrome and, perhaps, a heart attack or diabetes.”

American Heart Organization, *Circulation*, Apr 2006; 113: 1675 – 1682

You can have more energy and better health than you had in your 20s with Super Green Foods...But watch out for this little known secret!

To get the miraculous benefits of Super Green foods, your body must consume the most concentrated form possible of each nutrient -- These nutrients are identified immediately by the body as life-giving “food.”

But did you know that to save money, many “natural vitamin” manufacturers make supplements that are completely synthetic with added preservatives? Basically, they try to sell you vitamins that they label “natural.” But they don’t even include the part of the plant that actually contains the important, whole-food nutrients your body needs!

Instead, they use chemicals or the stems, barks, or roots of plants – at your expense! Even worse, these ingredients can give you significant digestive problems and allergic reactions! As a medical professional, I felt this was an outrage and set out to find a 100% natural, less expensive solution.

For years, I studied ancient healing techniques, traveled to remote farmlands and interviewed worldwide experts. My hope was to find a unique, affordable and effective way for my patients, and men just like you, to have more energy, stamina and overall health...And now it’s here!

Your Body’s Best Defense Against a Lagging Sex Life, Zapped Energy and Prostate Disease has Finally Arrived – Optimize!

After searching for years, I have developed a unique combination of 100% natural vitamins and herbs – They will help you feel younger and live the active, fulfilling lifestyle you desire!

No longer do you need to worry about losing your sex drive or stamina. You will have a more energetic and exciting love life that you can control!

Now your body can use these all-natural, vital food factors to become the man you want to be. *Never before has there been a more powerful formula to increase your sex drive, energy and overall health.*

Optimize can give you a better sex life in days!

What if you could have sex whenever you wanted knowing that you would always be at your peak performance?

You can relive the vitality and sex drive you had in your 20s.

Think how fulfilling it will be to satisfy you and your lover's needs on a regular basis. Whether at home, on the beach or in a romantic location, you'll always have the energy, stamina and strength to perform.

You'll feel good about yourself and your body. And you may even feel the urge to experiment with new and exciting sexual positions that feel incredible...(I'll let you know more in a minute, but first I want to tell you this...)

A hot, fulfilling sex life may sound unbelievable right now, but let me tell you why it's not...

You see, I've reviewed most of the men's vitamins on the market today. And I'm convinced that most of them will do very little to improve your sex life, fight disease and give you the energy you are looking for. I'm convinced that these so-called "men's health supplements" are nothing but combinations of synthetic chemicals, binders and preservatives, and insignificant amounts of nutrients.

At the Martin Smith Clinic and Health Awareness Center, our mission is to find the most effective, 100% natural solutions to fulfill men's constantly changing health needs. We develop formulas that are effective, safe and easy to use. We conduct extensive tests on all of our ingredients...Tests that surpass FDA clinical standards for quality and consistency. Plus, we make appropriate changes to Optimize as needed – on a monthly basis.

Now, I honestly can't tell you that you'll be 20 again, but I believe in our product. *And the newly discovered, natural ingredients in Optimize will make you feel 5 to 20 years (or more) younger.*

Optimize can help you – even if other “health” remedies have failed.

Optimize is not specifically a vitamin or a supplement. Instead, it is a combination of both. Plus, it has been specially formulated – It will automatically kick-start your immune system and body's natural healing properties. You see, unlike others, we look for the single-celled plants most perfectly suited for each particular nutrient critical to your body's needs.

Optimize contains super-foods, the richest part of the plant that delivers power and energy to you almost immediately...giving you the power to attack a full day's work and still have fun the night through.

We only use herbs classified by traditional Chinese herbal medicine as “superior” for their overall strengthening effect on the entire system – These tonic, whole-herb extracts come from the specific part of the plant that contains the full spectrum of powerful phytochemicals. This means that the unique nutrients your body needs for ultimate health and energy are *instantly absorbed*. This will help you build strength and stamina quickly.

And that's not all.

Feel healthier faster with the power of special enzymes working deep inside your body!

The Optimize formula has special enzymes that fight disease deep within you. Your body easily absorbs all of these naturally-occurring digestive enzymes, plant enzymes and antioxidants.

Experience all of the healing properties of RNA/DNA, Super-Oxide Dismutase (SOD), Glutathione Beta-Glucans, and many others – elements that are crucial to fighting disease.

Have more energy and better health than you ever thought possible with this single process!

Unlike any others, we take the time to use an ancient process called *hydroponics* – We grow all our plants without soil in glass-lined, steel tanks. This sterile, carefully-controlled environment helps us produce the purest and most concentrated form possible of each plant nutrient.

And we harvest the plants at the peak of ripeness.... You receive the freshest, most powerful nutrients possible from each plant to have better health and more energy as fast as possible.

Take advantage of this Super, Free-Radical Killer not available anywhere else!

Simply by taking Optimize, people around you will notice that you have lost that ugly belly fat around your stomach.

You'll get compliments on your sexy, tone muscles.

You'll have a better outlook on life and be happy.

And you'll even notice that more women are paying attention to you – It must be your increased energy, muscle mass, enthusiasm, and stamina!

You see, Optimize is the only product in the United States that contains both exclusive enzymes and the Super Green food *Hydrilla verticillata* to help your body fight disease.

This wild-harvested rooted algae is phytonutrient dense. In fact, it is one of the most potent antioxidants and free radical killers available!

Build muscles, have more energy, fight arthritis and decrease your appetite!

With this one ingredient, you get all of the benefits of calcium, potassium, iron, nitrogen, thiamin, molybdenum, phosphorus, chlorophyll, selenium, 17 amino acids, beta carotene, and the B vitamins!

“I can’t believe it Dr. Smith! I lost 35 pounds in 3 months, and I feel incredible! I tried every weight loss program out there, and Optimize is the only thing that worked – it must be your unique combination of nutrients and the Hydrilla. Thanks for changing my life for the better!”

B. Granger, New York

“We were surprised at the results of our controlled studies.

Patients who had taken *Hydrilla verticillata* on a daily basis not only increased energy, lean muscle mass and stamina...but they lost an average of over 20 pounds in just over two months!

They also reported leading happier lives filled with more fulfilling emotional and sexual experiences!”

The most powerful "Sex drive" booster you can find... Without a Prescription

Get ready to have more powerful erections and sexual stamina than you ever thought possible!

Did you know that recent FDA studies indicate that lifestyle and environmental toxins can significantly influence the number and quality of a man's sperm? To combat this problem, Optimize gives you three powerful ingredients to destroy environmental toxins and increase your sex drive.

Your Optimize Sex Drive Booster #1

Siberian Ginseng Root

The concentrated portion of this natural root in Optimize will help regulate your blood pressure, balance blood-sugar levels and boost your immunity. And traditional Chinese medicine practitioners believe the root improves chi, or life force. They believe the root alters blood flow to the brain, modifies neurotransmitter levels, and exerts mild hormonal effects. This combats impotence, heart problems, memory loss, stress, fatigue, and other abnormalities deep within your body.

Research Findings: Two recent studies, one that compared ginseng consumption among cancer patients and another that tested the effects of red ginseng extracts on mice tumors, found potential, cancer-preventive or therapeutic effects for the herb. Another study using Chinese red ginseng suggested benefits for treating erectile dysfunction. And a 1989 study showed measurable improvement in patients with Chronic Fatigue Syndrome.

Your Optimize Sex Drive Booster #2

Fo-Ti Root

Millions of Chinese today use this natural ingredient to retard aging and increase longevity. They consider it to be a sexual tonic that cleans your blood via the kidney and liver. The root is said to create "generative energy" that restores impaired sexual functioning and increases sperm count. The root is also used to help with lower back pain, insomnia, premature hair loss and graying, diabetes and hypo-glycemia. It also strengthens muscles, tendons, ligaments, and bones.

Research Findings: Current research shows that Fo-Ti Root lowers blood cholesterol and helps prevent the retention of fats in the blood stream and arterial lining. This may help reduce arteriosclerosis and decrease your chances of having a heart attack. Also, in vitro studies showed that it can protect the liver from fatty formation by inhibiting oxidation and the destruction of liver cells. (Kee Chang Huang, *The Pharmacology of Chinese Herbs*. New York: CRC Press, 1999, p121; Burnham TH, et al, *Fo-Ti. Facts and Comparisons: The Review of Natural Products*. St. Louis: Wolters Kluwer company, [Juli Kight](#), *Your Guide to Healthy Herbs*.)

Your Optimize Sex Drive Booster #3

Sarsaparilla Root

This root contains various steroids that can help your sex drive. It has been used for centuries by the indigenous peoples of Central and South America for sexual impotence, rheumatism, skin ailments, and as a general tonic for physical weakness. Sarsaparilla root contains "building block" chemicals that stimulate the synthesis of steroid sex hormones.

Research Findings: Various U.S. patent studies for the *flavonoids* and steroids in Sarsaparilla show it to be effective in treating autoimmune diseases, inflammation, senile dementia, cognitive dysfunction, and Alzheimer's disease. It is also a preventative and therapeutic agent for respiratory and allergic diseases such as acute bronchitis, bronchial asthma, asthmatic bronchitis, and chronic bronchitis.

In the studies, these ingredients reversed the decline of brain receptors in aged mice. And they restored the receptor levels to those observed in young animals, reversed the decline in cognitive function, and enhanced memory and learning. Several in vitro and in vivo studies demonstrated how Sarsaparilla can prevent immune-mediated liver injury, improve appetite and digestion and have stimulatory activity on the kidneys.

In addition to improving your sex life and overall health, Optimize can help increase your life span by protecting your prostate.

The odds are not in your favor - Protect yourself from prostate problems now!

I hate to tell you this, but if you are not having prostate problems now, there is a good chance you will.

*Did you know that more than 130,000 new cases are found each year in the U.S.?
That means you have a 1 in 10 chance of developing this disease!*

And this doesn't include the risk you face in getting the thousands affected by heart disease, stroke, cancer, and other debilitating health issues.

But you don't have to be one of the casualties!

You can protect yourself from the roaming free radicals that are bombarding your cell walls right now!

Optimize's unique formula contains tonic whole-herb extracts known for their potent antioxidant activity. These special antioxidants can help your body fight off the damaging effects of free radicals...and especially reduce your odds of having prostate problems.

"I can't thank you enough for including Super Green Foods in the Optimize formula! My body was getting weaker each day until I started taking your vitamins. Then, I had more energy than I've ever experienced in my life. I know it was the *Hydrilla* killing free radicals and boosting my immune system! My wife and I can't thank you enough. We are both thrilled with my increased stamina in the bedroom!"

The Unique Ingredient Every Man Should Not Live Without

You see, Optimize contains unique, whole food extracts from pumpkin seeds that you will not find in any other formula. Pumpkin seeds have been proven to promote men's prostate and genitor-urinary tract health.

Known for their potent anti-oxidant activity for the heart, prostate, liver, brain, pancreas, and immune system, pumpkin seeds fight free radicals attacking your system.

But we didn't stop there.

Our formula will help your body fight disease. You can have better health, energy and stamina with these natural elements working together:

Promote healthy bone density in your body with Boron

New research shows that Boron can actually shrink prostate size by up to 64% and may help to prevent prostate cancer. And additional research done at the U.C.L.A. School of Public Health finds that boron alleviates joint discomfort and preserves cognitive function.

Prevent prostate cancer and heart disease with Curcumin

This has antioxidant activity up to 300 times more powerful than Vitamin E!

Lower your risk of prostate cancer by 45%

Studies by the National Cancer Institute show that you can significantly reduce your chances of getting prostate cancer with the right amount of Lycopene.

Plus, you'll get all the health benefits and illness fighters from our unique combination of:

- Vitamin E – Helps fight heart disease!
- Vitamin D – Strengthens bones and teeth!
- Iron – Boosts energy!
- Potassium – Reduces risk of high blood pressure!
- Vanadium – Helps regulate blood sugar levels!
- Zinc – Boosts male fertility levels!
- Alfalfa – Helps with cholesterol levels!
- Nettle Leaf – Reduces allergic symptoms!
- Licorice Root – Improves digestion!
- And Much More (See the enclosed list of ingredients for more health benefits)!

Time is NOT on Your Side!

Don't let time or illness stop you from living the life you want to live! You can reverse the supposedly inevitable aspects of aging and fight diseases!

You can:

- Increase your sex drive!
- Protect yourself from prostate cancer and other serious illnesses!
- Boost your immune system!
- Have energy and good health to do the things you want to do!

“Chronic prostate infections are often linked to a lack of dietary zinc. Pumpkin seeds are a rich source of zinc as well as essential fatty acids, which are also necessary for prostate health...we have found that pumpkin seeds have a positive effect on symptoms for both benign prostatic hypertrophy and prostatitis.”

Michael Murray, N.D., author of
Male Sexual Vitality (Prima, 1994).
